## Leading Experts in Automatic Counting

Sky High have been supplying its customers with both permanent and temporary counting technology since 1989.

Sky High maintains permanent sites and retrieves data for many of its clients. We also complete over 6000 temporary ATCs a year. Using top of the line equipment we can supply our clients with a variety of real time, accurate, discreet, safe methods of gathering information whether it be for motor vehicle, cycles or pedestrians. Operating day-in and day-out we collect the flow, speed and class data you need for short or long-term trend and scheme monitoring.

Our advanced fieldwork systems and procedures are supported by a streamlined, high quality approach to survey management, analysis and reporting and all our work is underpinned by our ISO 9001:2000 Quality Management System and our absolute commitment to quality and service.

### Data on:

- Speed
- Bi-Directional counts
- Classification up to 12 classes
- Trend analysis

### In Addition to:

- Over 200 ATC units
- Full-time, highly experienced project managers and supervisors
- Full-time analysis teams
- Graphical representation & summary reports

### With the Benefit of:

- ISO 9001:2000 Quality Management System
- Nationwide coverage with local offices in Leeds, London, Halifax and Edinburgh

Once your data has been retrieved our full time analysts will compile a detailed report including graphs, tables and statistical indicators of the accuracy of the data.

For further information contact us by phone, fax or email.

Sky High has been established since 1989. We are a multi-disciplinary company serving the traffic and transportation industry, police forces, housing associations, blue chip companies and all other organisations needing high quality data collection, collation and analysis services.

With nationwide coverage and teams specialising in all types of manual, video and automatic survey, data capture and analysis we offer a comprehensive range of services which currently includes:

- Turning counts at junctions and major intersections
- Link-flow traffic counts
- Vehicle, pedestrian and cyclist origin destination surveys
- Vehicle registration number plate surveys
- Roadside interview surveys
- On and off-street parking surveys
- Journey-time surveys for buses, cars, walking or bicycles
- Congestion monitoring ( vehicle speeds, flow and occupancy surveys )
- Temporary automatic traffic counter ( ATC ) speed surveys
- Permanent ATC installation, maintenance and operation
- Traffic light violation surveys
- Pedestrian and cyclist surveys
- Rail and bus punctuality, ticketing and patronage surveys
- Topographical surveys
- Retail footfall surveys
- Market research surveys
- Data entry and verification
- Data collection consultancy
- Air quality monitoring
- Road safety audits
- Travel diaries
- Traffic database
