Leading Experts in Non-Motorised User Surveys

Sky High has collected data on NMUs for a wide variety of clients such as:

- National parks
- Central government and their agencies
- Local government
- Consultancies
- Public transport operators
- Police forces
- Developers

We use many different collection methods including manual, video, infra red, loops and pressure plate. We supply our clients with a variety of real-time, accurate, discreet, safe ways of gathering information for pedestrians, cyclists or equestrians. We operate day-in and day-out collecting the data you need for short or long-term trend and scheme monitoring.

Our advanced fieldwork systems and procedures are supported by a streamlined, high quality approach to survey management, analysis and reporting and all our work is underpinned by our ISO 9001:2000 Quality Management System and our absolute commitment to quality and service.

Data on:

- Speed
- Bi-Directional counts
- Classification up to 12 classes
- Trend analysis

In Addition to:

- Over 100 ATC units
- Full-time, highly experienced project managers and supervisors
- Full-time analysis teams
- Graphical representation & summary reports

With the Benefit of:

- ISO 9001:2000 Quality Management System
- Nationwide coverage with local offices in Leeds, London, Halifax and Edinburgh.

Once your data has been retrieved our full time analysts will compile a detailed report including graphs, tables and statistical indicators of the accuracy of the data.

For further information contact us by phone, fax or email.

Sky High has been established since 1989. We are a multi-disciplinary company serving the traffic and transportation industry, police forces, housing associations, blue chip companies and all other organisations needing high quality data collection, collation and analysis services.

With nationwide coverage and teams specialising in all types of manual, video and automatic survey, data capture and analysis we offer a comprehensive range of services which currently includes:

- Turning counts at junctions and major intersections
- Link-flow traffic counts
- Vehicle, pedestrian and cyclist origin destination surveys
- Vehicle registration number plate surveys
- Roadside interview surveys
- On and off-street parking surveys
- Journey-time surveys for buses, cars, walking or bicycles
- Congestion monitoring (vehicle speeds, flow and occupancy surveys)
- Temporary automatic traffic counter (ATC) speed surveys
- Permanent ATC installation, maintenance and operation
- Traffic light violation surveys
- Pedestrian and cyclist surveys
- Rail and bus punctuality, ticketing and patronage surveys
- Topographical surveys
- Retail footfall surveys
- Market research surveys
- Data entry and verification
- Data collection consultancy
- Air quality monitoring
- Road safety audits
- Travel diaries
- Traffic database
